Website Design

One Education provides the best **school websites** within your budget. Websites are full of features that cater to your school's requirements. Websites that we build are all optimised for performance and navigation. Our sites are mobile responsive. Displaying pixel perfect on devices of all sizes!

Integrate your school's Twitter feed or Facebook page. Communicate directly with pupils and parents through your school blog, perfect for news, events and school information. Easily schedule posts and moderate post comments.

▥ Smart features, tools and integrations to help save you precious time and effort. We'll connect your school website to your school office calendars.

▥ We'll teach you how to get the best out of your new school website with both 1-2-1 and online training.

Digital Marketing

The world of education is rapidly changing. Students and parents have more choices than ever before, from the type of school, to how they learn. In order to remain relevant in this competitive market, schools need to keep up with their competitors and maintain a strong online presence.

One Education provides digital marketing services only for educational institutions to stay competitive in today's marketplace.

▥ From social media marketing (Facebook, Instagram, Twitter etc) and search engine optimisation (SEO) to pay per click advertising (PPC) such as Google Ads, and making sense of analytics – we'll ensure your website is seen and people stay.

Emails

One Education offer expert email and email migration services whether our own solutions, Office365 or Google for Education. we support transition from a local-hosted system to one that is cloud-based, or move from one provider to another.

|||| Students will most likely be using email for a long time after they leave your classroom. If they learn how to use it correctly while in school, they might be better prepared for future careers.

"

Emails are the best way to document a conversation - We provide emails for everyone with same School/College domain

Mail Protect

The majority of cyber-attacks are distributed by email. MailProtect harnesses the power of multiple industry leading scanning technologies to offer round-the-clock protection from email-borne threats.

| Industry leading protection

||| Reliably 'set and forget' with 24/7 protection
No hardware or local software requirement
Fully supported service by One Education

"

Each day MailProtect filters over 2 million emails"

MIS

We provide the best solution for Management Information System where schools and colleges can use the benefits for the administration, documentation, tracking, reporting, automation, and delivery of educational courses, training programs, materials or learning and development programs.

- Student Management and Interaction
- Assessment and Reporting
- School Fee Reports
- Attendance Reports
- Parents Access

- High definition video recording
- Scalable solution that can be grown or reduced with ease
- Remote system monitoring – keeping your system fully operational
- Fully supported service by One Education

" The IP phone plugs directly into the Internet "

AutoText

AutoText allows schools to send text message and emails at the click of just a few buttons. Easy to use and low-cost, the service securely auto-integrates with your MIS meaning reduced admin, allowing for the texting of individuals and groups of people, broken down by school, year, class, house and after school clubs. You can even send free messages via a dedicated app.

- Low-cost texting
  Free push notifications
- Automated lateness and absentee reports
  Pre-existing templates or custom messages
  Logs of all sent messages
  Fully supported by One Education

WiFi

One Education are able to offer a variety of different WiFi options for schools looking for strong, secure, affordable and widespread wireless internet across their premises. We can provide Cisco Meraki, Ubiquiti Unifi, Ruckus or Fortinet hardware insuring you get the best solutions available.

- Comprehensive, secure WiFi
  Free site survey for WiFi deployment
- Web filtering integration
- Future-proof solution can grow as your school does
  Support and maintenance contracts
  Fully managed process by One Education

Technician Support

For schools without in-house IT expertise, we can put a trained IT professional in your school at a time and basis that suits you. Each of our technicians are polite, helpful, and willing to go the extra mile. They can assist on anything from faulty hardware or software configuration
to building a technology strategy and roadmap for your schools. The service includes a free network health check.

- Proactive, not reactive support
- Maintenance of all school IT
- Advice and consultancy on technical plans
- Fully DBS checked
- Available where and when required
- Reinforced by One Education's entire team's expertise

Remote Network Support

For schools that have an IT person or team, they may appreciate additional resource, or a second pair of eyes and a helping hand. Our remote network support offers additional expertise to IT professionals on the front line, complimenting their knowledge and hard work with AdEPT Education's assistance in all things tech, helping to deliver a proactive IT plan, rather than a reactive IT service.

- Holiday and sickness cover
- Expertise across the technology spectrum
- ICT troubleshooting and assistance
- Project management to help get
- Includes a free network health check
- Underpinning your schools infrastructure

Audio Visual

As technology becomes more commonplace, it's important that schools benefit from the latest and best the industry has to offer. One Education partner with a select number of education-focused audio visual and hardware partners to ensure you can get the right equipment for your schools and classrooms. The right technology can hold attention spans, save time, allow for new resources and learning experiences, scale, and excite the classroom for all involved, what's more, It might not be as expensive as you might think. We offer affordable leasing arrangements that give your school the best the industry has to offer at education-friendly pricing. To talk with us about any audio visual or hardware requirement, however big or small. Please don't hesitate to get in touch

Staff Training

There is a growing trend towards integrating ICT into teaching and training. New technologies offers to teachers and education staff a wide new range of possibilities and tools, but not without challenges. We provide ICT training course tailored for teachers and educational staff you will gain an outlook on best practices and concrete ways to use ICT to empower and support education.

One Education provides an annual schedule of training courses and events to support your Leaders, Management Team, Administrators, and Teachers
